

K-Love provides our community with, as their slogan goes, Positive and Encouraging support. In todays culture of death where emotional and spiritual death are so abundant, it is vital for the survival of mankind that out-reach programs like K-Love be able to minister to the public. Regaurdless of ones religion or denomination, K-Love offers support to all those who seek help. And that is more then just about any program out there, especially on the radio.
